

A Promising Start for Cornerstone Collaborative Florida!

June 2018 Newsletter for Our Stakeholders

Finance

As we approach one month of operations, we are at an important juncture to continue our work. We need to raise \$7,500 toward our annual fund goal of \$25,000 from individual contributions to continue start-up activity through the month of June. Our filing with the IRS for 501c determination is pending and we expect to receive a favorable determination during calendar year 2018. As we communicate the pending IRS determination, it will become easier and more comfortable for some to make a charitable donation, and we will apply for targeted foundation and government funding that require the designation.

Leadership

We are in discussion with a few key individuals in several parts of Florida to determine their interest in joining our Board of Directors. They are accomplished members of their respective communities, representing disparate sectors and backgrounds, and will provide depth and diversity to our governance structure.

Community Engagement

Our immediate fundraising goals will support and expand the developing community ecosystem and collaborative programming we are cultivating across Florida.

Over the past three weeks, we have engaged in effective planning with the Orange County Sheriff Department, Central Florida Urban League, and University of Florida Health which are yielding follow-up discussions to implement or develop programs serving communities in Central and Northern Florida.

Cornerstone Collaborative Florida's network of caring individuals and committed organizations directly engages the most vulnerable populations and people most in need of support for education, training, employment, legal advocacy, housing, health, nutrition, wellness, and whose underserved communities need immediate and sustainable economic development.

We have also made successful outreach to organizations and institutions in West and South Florida, and will be coordinating next steps to solidify strategic partnerships to grow our community-serving ecosystem.

We are excited that during our brief period of operations, Partnership For Boys, Deep Forgiveness, and LEO Hearted Cares, have agreed to "seed" our ecosystem, with other organizations in Florida in the process of doing so as well.

Join us! to multiply our collaborative value to strengthen Florida communities and advance the lives of those most in need of our support.
